

Aspire Europe Course Summary

Aspire Europe offer a range of training solutions to support organisations in delivering their change effectively, with many of our courses offering formal qualifications unique to Aspire Europe Ltd to help motivate and recognise the achievements of your teams.

Training is only one element of raising your capability and improving performance, the proof of the pudding is whether the new skills and knowledge is put into action back in the business. A maturity assessment to identify your strengths and weaknesses and using training as a vehicle to underpin improvements is an essential element of the improvement mix. We can offer a skills matrix for each of the key roles in change to help you target your training, and can conduct a maturity assessment using P3M3® to provide you with a baseline.
