

# Ensure you prioritize the right change initiatives with MoP<sup>®</sup> certification.

## Management of Portfolios (MoP) approaches the management of change projects and programmes from a strategic viewpoint.

**Designed to help ensure the best return from an organization's total change management investment, MoP provides an overview of all change activities.**

This includes what is in the portfolio, what it is costing, what risks are faced, what progress is being made, and what the impact is on business as usual and the organization's strategic objectives.

**MoP provides invaluable advice to senior managers and portfolio management professionals in understanding, prioritizing and planning their portfolio or change initiatives.**

Successful application of MoP guidance ensures that:-

- Programmes and projects undertaken are prioritized in terms of their contribution to strategic objectives and overall level of risk;
- Programmes and projects are managed consistently to ensure efficient and effective delivery;
- Benefits realization is maximized to provide the greatest return (in terms of strategic contribution and efficiency savings) from the investment made.

## FURTHER INFORMATION

### WHO IS IT FOR?

MoP is aimed at formal and informal portfolio management roles encompassing investment decision making, project and programme delivery, and benefits realization.

It is relevant to those involved in the selection and delivery of business change initiatives (e.g. board members, change directors and programme/project sponsors), portfolio, programme, project, business change and benefits managers, and business case writers and investment appraisers.
